

# 15th ANNUAL BIO5 | BIOSA STUDENT INDUSTRY NETWORKING EVENT

WEDNESDAY, FEBRUARY 15, 2023  
1:00PM - 6:00PM | FREE EVENT

## *Representatives from Arizona biotech companies want to meet YOU*

Meet representatives from life science, biomedical, and biotech companies to find out how to prepare for a career outside of academia and maybe even score an internship or a position right there.

SINE 2023 will run from **1:00PM-6:00PM**, in three consecutive sessions: a career resources session; a panel on current hiring trends in the life science industry; and finally, the heart of SINE, the Student Industry Networking session.

The first two sessions will be virtual, the networking event in person.
