ARE YOU INTERESTED IN A CAREER IN BIOLOGICAL ENGINEERING?

The Center for Research on Programmable Plant Systems (CROPPS) is now accepting 12 students to contribute to a bioengineering project.

JOIN PLS 299-448
SPRING 2024
M&W 1-3:30PM

*Note this class is both lecture and lab

Gain hands on research experience and learn molecular biology techniques including bioinformatics, DNA extraction, PCR amplification, and bacterial transformation

Instructors: Dr. Mark Beilstein and Ms. Erika Haws
